CAREER OBJECTIVE

Seeking a challenging role that enables me to contribute my expertise and passion for Java Development to design, building, and maintaining scalable and reliable software systems that meet the highest standards of performance for the Organization.

PROFESSIONAL SUMMARY

- 1 and half year of strong real-time professional work experience in Java Development.
- Proficiency in Java Development practices, tools, and methodologies, including continuous integration, continuous delivery, and configuration management.
- Familiarity with cloud computing platforms like Microsoft Azure, with basic knowledge in deploying and managing applications in cloud environments.
- Strong knowledge of version control systems such as Git for building scalable and resilient applications.

PROFESSIONAL EXPERIENCE

- Software developer (java) at Zecdata pvt ltd. Indore June 2025 to Dec 2025.
- Software developer (java) at intelliatech solutions pvt ltd. Indore MAR 2024 to Feb 2025.
- Trainee engineer (Java) at Bytesfarnes technologies Indore MAR 2023 to Nov 2023.

EDUCATIONAL QUALIFICAION

- **Master of Computer Application** (2020-2022)
Shri Govindram Seksaria Institute of Technology and Science, Indore with **7.11 cgpa**.
- **Bachelor of Computer Application** (2017-2020)
St. Paul Institute of Professioal Studies, Indore with **68%** marks.
- **Higher Secondary Certificate (HSC)** (2017)
Merit Higher Secondary School, Madhya Pradesh State Board with **68%** marks.
- **Secondary School Certificate (SSC)** (2015)
Merit Higher Secondary School, Madhya Pradesh State Board with **66%** mark.

SKILL SETS

Operating System	Linux , Windows
Programming Languages	Core Java, OOP's, Reactjs(Basic), Kotlin (Basics).
FrameWork	SpringBoot ,Hibernate,JPA, graphQL.
Containerization	Docker (Basics)
Databases	MySQL, MongoDB, PostgreSQL.
Logging tools	Kibana.
Monitoring Tools	Asana
Cloud Platform	AWS, Microsoft Azure (Basics)
Version Control Systems	Git

PROJECT UNDER TAKEN

Project Title	Successware
Platform & Skills	Java, spring Boot, graphql, kotlin, postgresql, Gradle, Junit5, kibana and MySQL.
Brief	Successware connects you with trusted home service providers like electricians and plumbers. Easily browse, book, and get reliable help through the app or website. Home maintenance made simple!
Contributions	Developed RESTful APIs with Java and Spring Boot, integrating with MySQL for efficient data management. Implemented encryption, authentication, and authorization to ensure data security. Optimized database queries. Participated in Scrum meetings, contributing to project planning and updates.
Project Title	Continum
Platform & Skills	Java, SpringBooot, ReactJs, MySQL and Microsof Azure.
Description	Continum. A B2B Return Order Management System designed for efficient order returns and comprehensive order management.
Contributions	Developed RESTful APIs using Java and Spring Boot framework, integrated with MySQL database. Implemented robust security measures including encryption, authentication, and authorization to safeguard data integrity. Optimized database queries, resulting in a 30% reduction in application response time and overall system performance enhancement. Engaged in weekly Scrum meetings, actively contributing to project planning and progress updates.

Project Title	IDR metro ticket booking system
Platform & Skills	Java, SpringBooot, ReactJs, MySQL and Microsof Azure.
Description	The IDR Metro Ticket Booking System simplifies metro travel with easy online ticket booking via app or website. It offers journey planning, QR-code tickets, and multiple payment options, ensuring a quick and convenient commuting experience.
Contributions	🛠️ Designed and developed a user-friendly platform for metro ticket booking using [mention tech stack, e.g., Java, Spring Boot, MySQL, etc.]. 🛠️ Implemented core features including journey planning, fare calculation, and QR-code ticket generation.

	■ Integrated secure payment options, supporting UPI, wallets, and cards. ■ Enhanced system efficiency by optimizing database queries and ensuring a smooth user experience. ■ Independently managed the project lifecycle, from concept to deployment.
